NATALIE SAENZ

Natalie Saenz, Community Advocates for People's Choice, updated Rotarians on CAPC's 40 years of supporting those with disabilities to live and work.

CAPC started with the mission to help graduates of the Whittier schools continue to live and learn after high school. Today, they facilitate employment, provide transportation with a new van, and even purchased a home recently for client housing.

Rotary is proud to donate to CAPC.

JESSE DURKIN

Jesse Durkin of Think Together introduced Rotarians to their array of after school, before school, and summer programs that expand student learning and growth.

From Science, Technology, Engineering, Math and Visual & Performing Arts programs to field trips & competitive sports opportunities, Think Together has enhanced local education for 25 years in Whittier and throughout California.

Welcome Jesse, we Rotarians look forward to partnering with Think Together.

DID YOU KNOW?

Rotarians in Carpinteria, California, must be talented. Their showcase has raised more than \$325,000 since 2009.
