TODAY

Ross Gile, Internet wizard of Digical, updated members on "What's Hot, What's Not in Technology 2025."

What's Hot: local and cloud backups; folding cell phone screens; artificial intelligence. Ross had ChatGPT.com write a thank-you letter. Wow!

Ross started with a 1977 Radio Shack Model 1 with 4k of RAM—yes "k". Since 1997, he has been designing websites. Many Whittier businesses and non-profits profit from his artistry.

BACK THEN

1924's August 21 *Rotogram* touted "The Program" that pursues Rotary's objectives to overcome the "Four Furies" of:

"HATRED of one class for another.

GREED makes profiteers and encourages sloth.

ENVY breeds suspicion and causes mental blindness.

FEAR causes lack of decision and drives men and businesses to an early grave."
