## ROTARY TODAY

Rotary International welcomed in the new year with a lively Rose Parade float. Clean Water, one of Rotary's seven worldwide goals, featured animation, music and Rotarians riding on and walking beside the float.

Your editor slipped up on Rotogram volume numbering. Volume 101 should have ended in June 2023, and Volume 102 should have started in July. Oh well, better late than never, and, it will give Whittier Rotarians in 2050 something to be confused about.

## AND 100 YEARS AGO

January 3, 1924's Rotogram listed four "open classifications". In those days, this meant these were four occupations in which Rotary Club did not have a member and wanted a member. The four were:  
Clothing (Men's, Drygoods, etc.)  
Food (Groceries, Meat, etc.)  
Mineral Oils (Any Oil classification)  
Auto (Service Station, Garage, etc.)

The upcoming week, 1924, will see the Monrovia Rotary President, John McBratney, visit Whittier Rotary.

## DID YOU KNOW?

Penapolis Rotary, Brazil, promotes clean water by giving away funnels to collect cooking oil; not flush down drains.

## UPCOMING

Thursday, Jan 11, 6 PM,  
Dame Mas Urban  
Cantina, Rotary Social  
joins First Day's "Moving  
On" Party for Rotarian  
Irene Muro, who is
