## TODAY

Garima Garg, Rio Hondo College Associate Professor, wowed club members and guests, and invited us all to the March 15, 2025 STEAM Festival.

Science, technology, engineering, arts & mathematics (STEAM) is an exciting interdisciplinary approach to learning and career preparation.

Rio Hondo College hosts, with Garima's leadership, an annual festival that attracts around 1,000 K-12 students and their families to the Whittier campus.

## LONG AGO

1939 Oct 18 *Rotogram* announced upcoming Rotary meetings with members discussing vocational topics, including:

“Do higher ethical standards decrease or increase profits in business?”

“Have advertising practices improved ethically?”

“California exploitation of farm labor is the favorite target today.” Reading *Grapes of Wrath* by John Steinbeck was highly recommended.

## DID YOU KNOW?

Rotarians of District 1730, France, ran a foot race wearing inflatable dinosaur costumes to raise End Polio funds.
