## TODAY

Aaron Benitez, creator of YouTube's *Aaron's Animals*, wowed us with animal stories and with how the influencer business works.

With more than eight million subscribers, Aaron struck a vein with viewers—and all from his home in Whittier.

Aaron, who hails from Seattle, graduated from BIOLA. He noted that while technology changes daily, the key to success remains a good story.

## BACK WHEN

O. K. Flood was featured in 1940's *March 27 Rotogram* for his leadership of the Rotary Conference and Convention. That year, the Conference and the Convention were separate gatherings.

O. K. is remembered by we older Rotarians as he was active in Whittier and in our club for many decades. Born in 1899, he passed away in 1994.

O. K. is also remembered for his bequest to this club: a gift that is still helping fund local charities today.

## DID YOU KNOW?

Rotarians of Tokyo Hiroo, Japan, and Beverly Hills, USA, united to bring music therapy to people with Alzheimer's.
