TODAY

PRESIDENT JEROMY FURGUIELE'S band "Pasaradio" has its own, new recording studio, in Jeromy's backyard.

Impressively, Jeromy did most of the work himself; from leveling the uneven concrete floor to installing sound dampening insulation on the walls and ceiling. Only the boost in electrical power to the studio was farmed out.

A musician--and an artist—Jeromy enticed club members with a sample of his eclectic mix of music.

BACK WHENO

1963 June 21 *Rotagram* featured guest speaker, Ray Stanish, entertaining members with "Light Is a Very Dark Subject."

Ray used humor to explain that "light is radiant energy in the form of jiggling electrons traveling at the speed of 186,000 miles per second." Ray went on to tell how "Al" Einstein used light in his "Theory of Relativity".

T. R. Rasmussen received "Happy Birthday" wishes. T. R. is our Rett's father.

DID YOU KNOW?

Rotary Club of Bucyrus, Ohio, outfitted 6,600 students with solar glasses for the total eclipse in April.

UPCOMING

Wednesday, June 26,
6 pm, Mission Square
Italian Restaurant,
